

PLEASE, in the name of all things good in this world, leave our do-not-call list alone! finally, FINALLY we have peace of mind in terms of the phone at least, and it is coming under threat! there are more than enough existing means to harass people with useless unwanted advertising information through the press, television, radio, and the internet, without people invading our telephone lines as well. that's not what we get telephones for. i wish all states had stringent do not call provisions so that i wouldn't have to deal with this nonsense at school!

thank you.
sincerely,
samhitha sreenivasan.
